

Dear Store Manager,

I love shopping here and love that you carry most of my favorite things. There's one item that I'd really like for you to start stocking—Natural Sins fruit and veggie chips.

They're a true chip upgrade. Each bag boasts whole mouthwatering slices of Costa Rican fruits and veggies. Think mangoes, pineapples, coconuts and beets all sliced 1/4mm thick. They're then sprinkled with a dash of cane sugar and baked low and slow for a one-of-a-kind crunch.

There are just two ingredients in every bag, which means Natural Sins crispy chips are healthier than the average snack chip.

The un-potato chip is here, and it's from Costa Rica. I would love it if you could talk with the Natural Sins team and get these amazing chips in your store.

Send an email to info@naturalsinsonline.com or call 561.531.8943 to find out more about pricing and distribution in your area.

Thanks!
